Objection Overruled.

The North Carolina Corporation Commission issued an order overruling the exceptions of the Atlantic Coast Line to the order of the corporation commission for the schedule connection of trains of the Atlantic Coast Line and Southern Railway at Selma. The order overruling the exception declares that the facilities given heretofore by the Atlantic Coast Line between Rocky Mount and Selma for nearly ten years should be restored; that if this can not be done by the Atof its business between Richmond and Selma, which necessitates longer stops, then other facilities should be furnished by the Atlantic Coast Line Company, that this connection which was the principal outlet for passengers from eastern Carolina to Selma and other Southern Railway points for the last ten years, instead of being abancloned should be made prominent and certain, and that this result be accomplished by carrying out the order heretofore made, that is, by extending the run of either the Spring Hope, Rocky Mount or the Plymouth-Rocky Mount train from Rocky Mount to Selma to connect with the Southern train or elese run an extra train from Rocky Mount to Selma for this connection. The statement was made in the office Coast Line now has ten days in which to comply with the order of the commission or appeal to the courts.

Japan Plays Secret.

London, By Cable.-Japan is most successfully keeping her plans secret. Not a single item of news which could be of possible service to the enemy has been permitted to leak out. The belief is prevalent in London, based on hints in dispatches from correspondents, that her main objective will be found to be the Liao Tung Peninsula, but that nothing of a military nature will be attempted until Russia's naval squadrons are effetually disposed of.

Laborers Arrested.

Danvile, Special .- Sixty-two of the foremen and laborers engaged on the \$2,000,000 plant of the Dan River Power and Manufacturing Company, in course of construction a mile above Danville, have been arrested for laboring on Sunday last at those works. The men claim the work was essential and that the works cannot be completed without some Sunday work. The cases were partially heard tonight and an adjournment was taken without result until Friday morning.

BRYAN AMONG TAR HEELS

Spoke at Greensboro Saturday Night Total Destruction of an Old and Popand Spent Sunday in Raleigh.

Hon. William Jenings Bryan spoke in Greensboro Saturday night. Governor Aycock introduced Mr. Bryan to a large audience as a statesman who had twice received the electoral vote of North Carolina for President of the United States, but who was present now simply as a much loved private citizen seeking no office, and as such he was as welcome and as highly esteemed as he ever was. He concluded his short address by saying that the distinguished visitor was the ablest orator, the best exponent of true altruism living today. Speaking of the value of ambition, he said that circumstances often changed ambition and plans of his had been often changed, especially recently, (great laughter). His first great ambition was to be a Baptist preacher; his second to be a farmer; his third to be a lawyer. He got into politics by accident and had kept in it by design. His lecture abounded in appeals for a high ideal in religious, domestic, business, professional and political relation. His only direct reference to politics of the day was a declaration that the party which shows its ight rather than succeed by a sacrifice of principle to the injury of the people would in the end succeed, just as was the case of individual character. There seems to be a fatality among the female colleges of the State. Only recently the property of Oxford Female Seminary, a leading Southern institution for the education, was totally destroyed. About 3 o'clock Miss Transou, a student from Ashe county, was awakened by suffocating smoke in her room, and at once gave the alarm. The fire was in the second story, in the L of the building back of the auditorium and over the music room. Being some distance from the sleeping apartments, all the sleeping occupants were aroused, and had time to dress, secure their val. uables, their trunks, etc., and escape without injury, and with remarkable absence of excitement or panic into the bitterly cold night, made brilliant in a few moments by the glare from the flames bursting out of the roof of the rear buildings. The fire department reached the scene in good time and connected with the two hydrants available, but it was realized from the state of the fire when discovered that nothing short of a fire boat would have been sufficient to have checked the flames, which were roaring mountainhigh from the fourth story attic of the L when they arrived. It was a large three-story brick structure, with an imposing frontage, and a deep L, and the flames though surely destroying every vestige of the buildings, were deliberate enough to enable the many willingness to go down in defeat for the ready hands from the citizens who were awakened and the splendid assistance of the faculty and students, to save nearly every thing of value in the deeper than any political organization of the faculty, were the principal sufferers, some of these losing everything | chamber. dard or a double standard, it was their of their personal belongings. these, Misses Shattuck, Blaylock, Fisher. Davis and McDonald lost nearly everything, a considerable portion of her silverware, being saved without her knowledge. It is said that this loss could have been averted, had not these brave, noble women, in their efforts to keep order and system in the student body, and save as much as possible of their effects, lost sight entirely of their own property and gave no in-timation whatever of its not having

been looked after. There was a meeting of the entire student body and the faculty at West Market Street Methodist church at 10 o'clock Thursday morning, when a committee was appointed to look after all matters necessary for the proper comfort and assistance of those who lost their clothing, and to arrange for their going home. Mrs. Robinson, the president, advised the students not to leave until Friday, but as many had already telegraphed they were going home and had the means for travel, they were permitted to leave. All who have notready funds for the emergency will be supplied without difficulty, and a committee headed by Mr. Frank Boyles, of the Greensboro National Bank, is looking after this part of the

programme. There were about 90 occupants of the college, including members of the faculty, and homes for 300 were sent in by citzens and hotels, so there is no trouble whatever about accommodations. There were ten young ladies in the senior class and efforts will be made to provide the continuance of their course in some other college. Mrs. Robinson stated at the meeting this morning that it was impossible to determine what the future action of the trustees would be, but that every effort possible would be made to rebuild. She said she had just received a letter from one man, saying he would be one of a 1,000 to contribute \$100 for a building fund. Two men in the audience immediately responded that they would be one of 100 to give \$1,000

in cash to a rebuilding fund. It is impossible to state how the fire started. It was near the same place of the fire which came so near burning the college two weeks ago, only this time it was 2 o'clock instead of 10 o'clock. The electric wire was cut at the last fire, and was not live, and there had been no fire in any stoves in two months.

FUNERAL OF SENATOR HANNA

-Cleveland,

On last Friday the mortal remains of Senator Marcus A. Hanna were laid to rest at his old home at Cleveland, O., Bishop Leonard, of the diocese of Ohio, officiating. The body was borne in state to the cemetery, where a host of loving friends witnessed the interment. The casket was banked in beautiful flowers and the sorrow was deep and genuine as all present realized that a great man and a true friend had passed away from earth.

Funeral Arrangements.

At a council of the members of the Hanna family and some intimate friends of the Senator, held Tuesday, arrangements were made for the funeral services. The remains of Senator Hanna were conveyed from the Arlington hotel to the capitol at 11 o'clock Wednesday morning. The cortege was simple and there was no demonstration the carriages containing the members of the family and invited friends, was detail of mounted police. The caset-bearers were officers detailed from the capitol police force. The body was conveyed at 5 o'clock to the Pennsylvania Railroad station. At 6 o'clock a special train bearing the body and the members of the family and their invited guests left for Cleveland.

Arriving at Cleveland about 11 clock the train was met at the station by the citizens' committee and by Cavalry, which was ordered by Governor Herrick to act as a special guard of honor.

During the afternoon and night of Thursday, the remains of Senator Hanna lay in state in the chamber of com-

Speaker Cannon took his place at the left of President Pro Tem. Frye. Then came the ambassadors and ministers from foreign countries, who were given seats next to the front row on the Republican side of the chamber, and they were immediately followed by Admiral Dewey and Gen. Gillespie, representing the navy and army. Chief Justice and Associates Justices of the Supreme Court were ushered into seats on the Democratic side. President Roosevelt and members of his cabinet were then announced and all present rose without waiting for the tap of the gavel. The presidential party were escorted by Col. Symons and Commander Winslow in full uniform. The President and his cabinet occupied the front row of seats at the right of the presiding officer.

Twenty minutes later Mrs. Hanna, leaning on the arm of her son, Mr. Dan R. Hanna, entered the chamber and took a seat in the front row on the left side of the presiding officer. She was followed by her daughters and their husbands and other members of the family and immediate friends, all of whom were given seats in the immediate vicinity of the casket. Every one present rose as the family entered and remained standing until they were seated. President Pro Tem. Frye then addressed the Senate, saying:

Mr. Foss made an urgent appeal for the upbuilding of the navy, emphasizing the necessity of ship construction in times of peace with the query: What would Russia give today if she could call back some of her sunken ships?" He said, in conclusion that when it became necessary for this government to strike, it should be prepared to strike a blow like that struck by Dewey at Manila. Mr. Foss was strongly seconded by Meyer of Louisiana, the ranking Democratic member on the committee, who combatted the statement that the navy was too heavy, as charged and declared it indispensable that we should have a strong navy. Saturday was a field day in the House. The naval appropriation bill was under consideration and the discussion encompassed various topics, much of it revolving more or less around politics. After Mr. Drayton, Republican, of West Virginia, of the committee on naval affairs had pleaded for a larger navy, Mr. Hitchcock, of Nebraska, declared that there was gross national extravagance in the annual appropriation bills. He asserted, too, that the larger items in the army and navy supply bills went to the trusts, the armor trust, the beef trust and the ship-building trust. He gave notice that on Monday he would attempt to amend the bill to provide for a government armor plate factory. He said the armor plate factory had made enough profit during the past five years to pay handsome dividends, pay entirely for its plant to have money left over. if not patriotic.

At this writing the war news is meagre. The Russians boast that they want only till September to drive the Japs off the face of the earth into the sea. Thus it may result on account of Russia's overwhelming numbers and resources, but when she has driven the Japs off the earth many of her own best and bravest soldiers will have gone into the earth unless present signs fail. Every civilized country with perhaps one or two exceptions sympathizes with Japan and admires her pluck, and what she has already done to Russia has doubtless cost the latter more than to have yielded which preceded.

RED SHIRTS IN HISTORY.

An exchange tells us that Jameson's Directory of American History vol. 2, page 407 gives the following history of the North Corolina Red Shirts:

he says: "Red Shirt is a political The pyramins first, which in Egypt organization, formed in North Carolina in June, 1900, to promote prin cipally by intemidation, the success of an amindment to disfranchise the negroes. Great bitterness character ized the campaign, resulting in riots Fourth the Temple of Diana, in in which several persons were killed. Red Shirts were active in their hostilities, and so threatened the public once order out the State Guard, to surpress them."

This is the kind of public advertising our State is receiving, for Or Palace of Cyrus, cemented with same paper of the same date: which the State can thank the Simmons-Aycock machine. Will this kind of bistory prove an incentive for capital and labor to come here? We think not.

The Raleigh dispersary has not yet passed the "Jim Crow" law.

An exchange informs us there are thirty-four democratic candidates for governor. Still the democrats claim they are not "pie" hunters.

Dr. Miles' Nervine Built Up My

Gave Me an Appetite.

Of the millions of people, who today suffer from nervous or heart weakness, a large per-centage trace the cause directly to deadly LaGrippe. It is a germ disease, and makes a direct attack upon the nerves, putting an extra strain upon them at the time their vitality is at the lowest ebb. If LaGrippe has left you with a shattered nervous system, with loss of appetite, lack of energy, insomnia, frequent headaches and morbid tendencies, you should strengthen the weakened nerves with Dr. Miles' Nervine. It will undo all that grip has done, bring back appetite, rest and restore the nerves to their normal activity.

"I want to write this testimonial for the benefit of those who have suffered from that dreaded disease—LaGrippe. I suffered sev-eral weeks with it, and nothing I tried seemed to benefit me in any way, shape or form (I suffered almost death) and finally my daughter recommended Dr. Miles' Nervine to me and I can truthfully say from the first day I felt better than in weeks. It gave me relief, built up my shattered nerves and gave me a splendid appetite. I cannot speak too highly of it and want to say, each and every one who has suffered from LaGrippe will find instant relief by getting a bottle of Dr. Miles' Nervine. Insist on having it and take no other. It is simply splendid. Hoping this will benefit some poor sufferer I remain," -MRS. GEORGE B. HALL, Jackson, Tenn.

A Professional Nurse Tells Her Experieuce With Doan's Kidney Pills. Montague, Mass.

Foster-Milburn Co., Buffalo, N. Y .: Gentlemen-I heartily wish those who are suffering from backache and disturbed action of the kidneys would try Doan's Kidney Pills. As was the case with me, they will be more than surprised with the results. I had been troubled for years with my spine. I could not lie on either side. Spinal cramps would follow, and words could not explain the agony which I would endure. While in these cramps I could not speak or move, but by making a great effort after the cramp had left me I could begin to speak and move a little, but my whole back was so sore and lame that I could not even have the back bathed for some time. My nerves were in a terrible state. I would rather sit up at night than go to bed, dreading the cramps and the terrible backaches. I consulted physicians, but got only a little relief for the time being. Seeing your advertisement, my mother urged me to try Doan's Kidney Pills. After using one box I was better, and have ever since been on the gain. I have no backache and no cramps now, and I feel like a new person. My nerves are better and I know my blood is purer. Words cannot express my thanks to you for what Doan's Kidney Pills have done for me. In my work as professional nurse I have a chance to recommend them, and they did me so much good that I will do so on every possible

AT SEAT OF WAR

Progress of the Japanese Against the Forces of Russia

MANY SOLDIERS WERE MOVING

Reported That a Large Detachment of Japanese Infantry Were Detailed to Make Demonstration.

Paris. By Cable.-An official dispatch received here from Tokio announces that one of the most important movements of Japanese troops yet made occurred Wednesday. One of the main branches of the army, consisting of three divisions and including a division of guards, is now going on board transports. The previous landings of Japanese forces in Korea and elsewhere are said to have been small compared with this simultaneous sailing of three divisions, aggregating approximately an army of 30,000 to 50,000 men. It is believed, but this is not sure, that the destination of this force is a point near the mouth of the Yalu river or a spot on the Liao-Tung Peninsula, flanking Port Arthur.

Another official dispatch says a Japanese transport has been sighted off a town south of the mouth of the Yalu

Open to the World.

Washington, Special .- Mr. Allen, the American minister at Seoul, cables the State Department that Wiju has been declared open to the commerce of the world by the Korean government.

The United States was the first ower, so far as known, to apply to the Korean government for the opening of Wiju to the world's trade. This action was taken while Japan and England were urging the opening of Yong-ampho, lying at the mouth of the Yalu river on the Korean side. The view taken by the State Department was that if we could secure the opening of Wiju, 150 miles up the Yalu above Yong-am-pho, the effect would be to practically open the whole of that stretch of the river to commerce, so that the project really was much larger than the mere opening of a port at the mouth of the river. Wiju lies on the opposite side of the river and is very near to Antung in Manchuria which the Chinese government has already by treaty with the United States declared to be an open port, although his never has been admitted by Russia. It is understood that the opening of Wiju is directly attributable to Japanese ascendency in Korea, for while the country was under Russian influ-"Not exactly," replied the prostrate ences Mr. Allen, the American minister, was unable to induce the King to open a single part in addition to Chemulpo. It is probable that the State Department at once will take steps to have America represented at Wiju by a consular or commercial agent.

TWELVE PERSONS INJURED

The Florida Limited Wrecked Near Atlanta.

Atlanta, Special.-The Florida Limted, on the Western & Atlantic Railroad, south-bound, was wrecked eight miles from this city Tuesday. The cars were overturned and 12 persons were injured, two of whom may die. The seriously injured were: Mrs. Foster, Toksu, Ky.; Mrs. M. C. Keating, St. Paul, Minn., internal injuries; Mrs. E. T. Glennon, Chicago, face cut, badly bruised; J. W. Emerson, Atlanta, mail clerk, back sprained; Will Burgess, dining car waiter, internal in

The train, which was an hour and 20 minutes late, was running at a high speed. It carried a full complement of passengers including many from Chicago, Cincinnati and Western cities. The news was telephoned to the city and a wrecking train was immediately sent to the scene with physicians. The wreck was due to the breaking of an

Biscult Manufacturers,

\$16,0000,000 for Improvements.

Philadelphia, Special.-The spring municipal election was held Tuesday and all the candidates on the Republican ticket were elected. The proposed \$16,000,000 loan for municipal improvements was approved by a large majority. George A. Castor was elected to Congress from the third district at a special election held to fill the vacancy caused by the death of Henry Burke, Republican.

197 Russians Killed.

St. Petersburg, By Cable.-The report circulated here that the Russian cruiser Boyarin was blown up last Saturday, and that all her officers and crew, 197 in number, were lost, is confirmed from a private source.

The Boyarin was 348 feet long, 41 feet beam and 16 feet draught. She was of 3,200 tons displacement and her trial speed was 25 knots. Her armament consisted of six 4.7-inch guns; 1.8-inch guns, two 1.4-inch guns and three machine guns. She was also fitted with six torpedo tubes. The Boyarin was last reported as having taken part in the engagement of Feb. 9 at Port Arthur.

Bryan's Tribute.

Tallahassee, Fla., Special.-Wm. J. Bryan, when informed of the death of Senator Hanna, said: "He was one of the most forceful figures in modern politics. He won his place at the head of his party in the Senate, in the nation, by his extraordinary executive ability and by his skill in organizing the forces that control that party, and even his political opponents recognized the strength of his personality and many admirable qualities,"

FRAUDS IN A BALE OF HAY. Frauds in Watch Cases.

According to an article in the Cincin according to an article in the Cincin-nati Commercial, a fifty-one pound stone was recently found in that city secreted in a bale of hay of eighty pounds. This is not as bad as finding a lump of lead of nearly one-half the weight of the solid gold watch case secreted in the cen-tre of the case.

Gold watch cases are sold by weight, and no one can see where this lead is secreted until the springs of the case are taken out and the lead will be found secreted behind

These cases are made by companies who profess to be honest, but furnish the means to the dishonest to rob the public. It is not pleasant for anyone to find that he has lugged a lump of lead in his watch

Another trick of the makers of spurious solid gold watch cases is to stamp the case "U. S. Assay." The United States does not stamp any article made out of gold and silver except coin, and the fakir, by using this stamp, wants to make the public be-lieve that the Government had something to do with the stamping or guaranteeing the fineness of watch cases.

Another trick of the watch fakir is to advertise a watch described as a solid gold-filled watch with a twenty or twenty-five-year guarantee. These watches are generally sent C. O. D., and if the purchaser has paid for the watch he finds that the company which guaranteed the watch to wear

is not in existence. The Dueber-Hampden Watch Company, of Canton, Ohio, who are constantly exposing these frauds, will furnish the names of the manufacturers who are in this ques-

There are 29,000 Indian children in school, 62,616 Indians who can speak English and 143,974 Indians who wear civilized dress.

Twenty-three Killed.

Ogden, Utah, Special.-Two cars of dynamite, attached to a work train on the Ogden-Lucien, cut off of the Southern Pacific railroad, exploded with terrific force late Friday afternoon at Jackson station, 88 miles west of Ogden, killing at least 23 persons, injuring as many more and destroying a great amount of property. The list of the dead and injured had not been received up to midnight, but it is thought a large proportion of the victims were Oreek laborers. Among the known dead are Conductor George DeRemy, of Ogden, and his train crew.

The fellow with an ungovernable mper is the one who is always losig it.

NEWSY CLEANINGS.

For years the editor has been urging farmers to sow Alfalfa Clover, and glad he is that thousands of wide-awake farmers, scattered all over America, are doing this now, to their great benefit and satisfaction.

A. Walford, Westlore Farms, Pa., writes:

A curious freak of nature was exhibited recently by W. P. Harmon of Warren, Vt. Salmon Lore.

It is disheartening to listen to an expert fisherman talking salmon. He will start off with "sockeyes," and land you in a labyrinth of queer phrases. The full grown fish is the salmon. On its second return from the sea it is a gerling, and on its first return a botcher. Under five pounds it is a grilse, and under two pounds is a salmon-peal. From one to two years before it has gone to sea it is a parr, pink, smolt, smelt, salmon-fry, spragg, salmon-spring, samlet, brandling, fingerling, black-fin, shed, skegger, gravelling, hepper, laspring, gravellaspring, skerling or sparling. And, as if these names were not enough, we have the milter, summer-cock, gibfish, simen, etc. A salmon which remains in fresh water during the summer, without going to sea, is a laurel. After spawning, this fish is a kelt, or slat. A male is a skipper, a female a shedder, or baggit. The list might be extended indefinitely.- New York
